

amanda

The Amanda 1 sofa has been designed with each and every detail in mind, from its comfort to the craftsmanship of its shape. The lightness of its design is achieved by refining the curves of the backrest and the arms, which subtly gather the body of the seat.

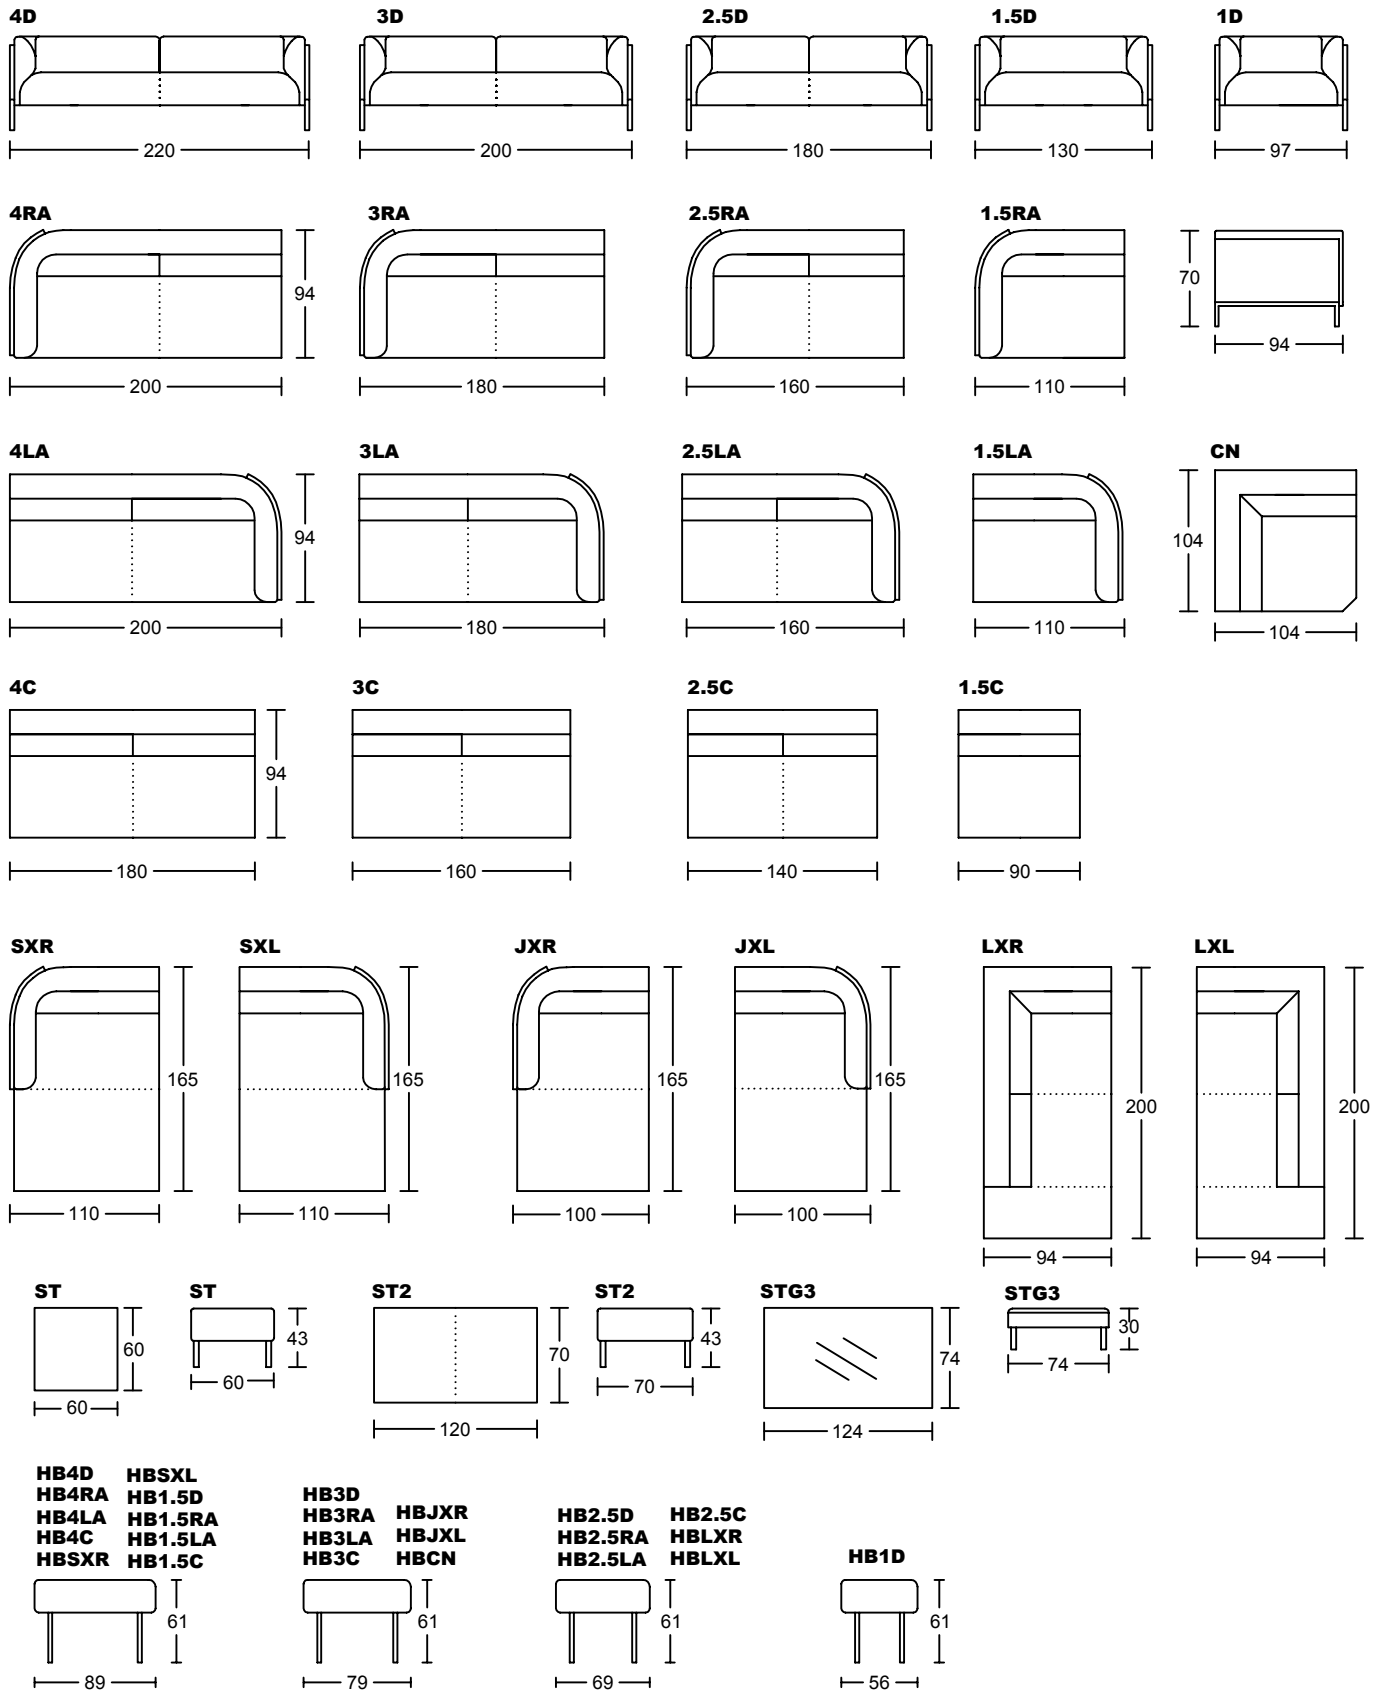

The Amanda 111 armchair can be combined with your sofa or become a contrasting element in your living room. The excellent craftsmanship of the curved leather back and finishes is the distinctive point of this contemporary furniture.

Available in a large selection of leathers, colours, sizes and configurations.
